

Ioana :- Problem In matching and maintaining inventory of clothes

Sanket Garg

Interview Script:

Introduction:-

Hi, I am Sanket Garg today in this interview , i will explore different areas in your life that you may face problems -- It will help me design an app customised to meet your specific needs.

Questions:-

- 1:- What kind of problem your are facing nowadays?
- 2:- Do you need time to think on the problem your are facing these days?
- 3:- Is there is anything earlier you have done to solve your problem?
- 4:- Do you have tried other apps to solve your problem?
- 5:- Do you want the app to have a 3d portrait of your or just an image is fine?
- 6:- Does the app need to separate the daily clothes , party wear and your traditional clothes?
- 7:- Does the app needs to also store the accessories you have?

Supporting Questions:-

- 1:- The app is special meant for girls or it can be used by anyone?
- 2:- You want to store your perfumes or cosmetics stuff into it or not?
- 3:- Does the app is specially meant to do the matching of clothes?
- 4:- Does the app need any special features for matching accessories?
- 5:- Do you want to separate clothes also according to season?
- 6:- Do you separate clothes according to day and night time?
- 7:- Do you want a sale option in the app between other members?
